#1) Projects Underway or Completed with Mitigation Grant funding - Quarterly Reports on file with NJSP OEM Mitigation Unit: (Brief Project Description)

3. Construct or install improvements to eight (8) sanitary pump stations within the Borough. Install emergency backup generators (Riverside, Club Way, Thorton Way, Navesink Ave.) Raise access, lids, covers, and vault chambers (Riverside, Club Way, Thorton Ways, Navesink Ave., Buena Vista, Shrewsbury Dr.). Install reinforced steel, rubber gasket-lined storm doors (Marina, Grant Ave.)
4. Install reinforced steel, rubber gasket-lined storm doors on DPW Building. The storm doors will be installed to the building's service bays to provide greater protection from wave action and flooding to the building's structure and contents.
14. Upgrade Borough wide SCADA system.
19. Prepare an upgrade to the Emergency Operation Plan (EOP) for the Borough of Rumson.

#2) Which Projects listed in HMP (appendix 1.9) are still valid and to be considered for funding:

2. Construction of an earthen berm and associated grading above the existing bulkhead at the western and eastern terminus of Grant Ave.
5. Construct a series of flood mitigation infrastructure improvements. Installation of 150 linear feet of new elevated bulkhead, the rehabilitation and replacement of existing drainage pipes, and the installation of a new tide valve at the intersection of Shrewsbury Dr. and Ave of Two Rivers.
7. Install emergency power, upgrade shelter facility located at Rumson Fair Haven High School, including emergency power facility.
8. Maintenance, removal of debris and sediment accumulation in receiving waterways and creeks with impedes flood flows.
9. Tree trimming and pruning to prevent downed power lines.
10. Maintain warning systems, continue to maintain current warning systems that are already operational including website, AM radio, Reverse911 calling system and emergency siren alerting system.
11. Enact new FEMA flood maps as part of planning and zoning regulations.
12. Install quick connection for portable generator at Borough Hall.
13. Install improvements to enhance Bingham Hall Comfort Station.
15. Install an emergency generator at Oceanic Hook & Ladder Fire House.
16. Rehabilitate and upgrade the existing drainage system to increase capacity and decrease flooding at the south end of Club Way and at the intersection of Holly Tree Lane and Evergreen Drive.
17. Installation of 225 linear feet of new bulkhead at the Rumson Boat Launch.

#2A) Projects NO longer valid:

1. Home Elevation, Elevating of 32 homes to new FEMA FIRM maps

#3) Projects underway or completed (identified in appendix 1.9, or not) using funding other than Mitigation Grants:(Brief Project Description)

2. Construct a series of flood mitigation infrastructure improvements. Installation of new elevated bulkhead and a new tide valve at the western terminus of Washington Ave., the installation of new tide valves at the eastern and western terminus of Grant Ave., the terminus of Waterman Ave., the midblock of Warren St., and the midblock of Waterman Ave., and western terminus of Waterman Ave; and construction of an earthen berm and associated grading above the existing bulkhead at the western and eastern terminus of Grant Ave.

6. Remove and replace existing underground diesel fuel storage tanks.

8. Maintenance, removal of debris and sediment accumulation in receiving waterways and creeks with impedes flood flows.

9. Tree trimming and pruning to prevent downed power lines.

10. Maintain warning systems, continue to maintain current warning systems that are already operational including website, AM radio, Reverse911 calling system and emergency siren alerting system.

18. Provide the Borough with an automated and expedited system for zoning and construction permit administration.
